SECTION 1 INTRODUCTION AND EMISSIONS SUMMARIES

1.1 Introduction

This document presents the 2002 Louisiana 8-Hour Ozone National Ambient Air Quality Standard Base Year Emissions Inventory. The Baton Rouge Ozone Nonattainment Area, hereafter referred to as the Baton Rouge Area, includes Ascension, Iberville, East Baton Rouge, Livingston, and West Baton Rouge Parishes. This inventory addresses carbon monoxide (CO), oxides of nitrogen (NOx), and volatile organic compounds (VOC) emissions from stationary point, stationary nonpoint, nonroad mobile, and onroad mobile emissions sources.

1.2 Peak Ozone Season

The Peak Ozone Season (POS) is the consecutive five-month period with the highest frequency of National Ambient Air Quality Standards (NAAQS) exceedances occurring in the inventory area.

The POS for the Baton Rouge Area includes the months of May, June, July, August, and September. Table 1.2 displays the ozone exceedance days for the Baton Rouge Area for the three-year period 2000 thru 2002.

Table 1.2: Ozone Exceedance Days for the Baton Rouge Area

	2000	2001	2002		
	Exceedance	Exceedance	Exceedance		
Months	Days	Days	Days		
January	0	0	0		
February	0	0	0		
March	0	0	0		
April	0	0	0		
May	1	0	0		
June	0	0	0		
July	4	1	0		
August	6	0	1		
September	0	0	1		
October	0	0	0		
November	0	0	0		
December	0	0	0		
Total	11	1	2		

1.3 Geographic Area

The inventory submitted for the Baton Rouge Area, designated as marginal, consists of emissions for the five parishes of Ascension, East Baton Rouge, Iberville, Livingston, and West Baton Rouge. The Regional Urban Airshed Modeling (RUAM) 4 km domain consists of the State of Louisiana (see Map 1.3-1). The Baton Rouge Area is defined by the 2 km domain of the RUAM and consists of the five nonattainment parishes. An enlarged view of the 2 km domain of the Baton Rouge Area is represented by Map 1.3-2.

1.4 2002 Louisiana 8-Hour Ozone National Ambient Air Quality Standard Base Year Emissions Inventory Format

The Cover and Title page indicate the responsible agency and report date. The Table of Contents illustrates the order and page numbers of each section, table, chart and/or figure. Section 1 presents an introduction to the inventory, as well as defining the scope of the inventories identifying data sources, and summarizing the results. Table 1.8 and Chart 1.8 summarize the emissions from the Baton Rouge Area by pollutant, source, and parish. Section 2 pertains to the stationary point sources and contains an emissions summary for the Baton Rouge Area. Sections 3, 4, and 5 address the stationary nonpoint sources, the nonroad mobile sources, and onroad mobile sources, respectively. The appendices contain a list of acronyms¹, a sample emissions inventory report, 2002 point source emissions by parish and facility, the Consolidation of Emissions Inventories (Schedule 9; Work Item 3) Final as prepared by E.H. Pechan & Associates, Inc., the methodology for applying rule effectiveness, 2002 nonpoint and nonroad emissions by Source Classification Code (SCC), the Emission Inventory Development for Mobile and Agricultural Dust Sources for the Central States as prepared by Sonoma Technology, Inc. (STI), the vehicle miles traveled (VMT) by class and by parish, and the onroad mobile emissions summaries by parish. A CD-Rom containing Microsoft Access files of E.H. Pechan & Associates, Inc.'s data is included in the package for further reference. The public participation section, Appendix K, includes a notice of public hearing, transcripts, and comments/responses.

1.5 Contacts Responsible for Inventory

The Louisiana Department of Environmental Quality's (LDEQ), Office of

¹ A list of all acronyms used in this document or the documents contained in the appendices is listed in Appendix A.

Environmental Assessment (OEA), Air Quality Assessment Division (AQAD), Data Collection and Evaluation Group (DCE) has responsibility for preparation and submission of this inventory.

Cedric C. Mellion, of the LDEQ's DCE, is the contact person for the emissions inventory in its entirety. Ron Rebouche, also with LDEQ, was responsible for the onroad mobile section.

1.6 Contributing Agencies, Associations, and Organizations

Various other federal, state, and local agencies contributed information that was necessary for preparation of the emissions estimates. The Office of Planning and Budget, Division of Administration for the State of Louisiana provided population statistics. The 2002 population estimates were based on data from the 2000 census as stated in the United States Census Bureau's website population projections for Louisiana parishes. All assisting agencies and associations are listed below:

East Baton Rouge Mosquito Abatement

Louisiana Department of Agriculture and Forestry

- -Forestry Office
- -Pesticides
- -Soil & Conservation

Louisiana Department of Employment and Training

-Research & Statistics

Louisiana Department of Environmental Quality

- -Air Permits Division
- -Solid Waste Section Water Resources Section
- -Underground Storage Tanks

Louisiana Department of Natural Resources

-Pipeline Division

Louisiana Department of Public Safety and Corrections

- -Office of Motor Vehicles
- -Office of the State Fire Marshal

Louisiana Department of Revenue and Taxation

-Excise Taxes

Louisiana Department of Transportation and Development

- -Environmental Technology Unit
- -Material Lab
- -Motor Fuels Unit
- -Traffic & Planning

Louisiana Department of Wildlife and Fisheries

-Motorboat Registration

Louisiana Farm Bureau Marketing

Louisiana Oil Marketers Association

Louisiana Planning and Budgets

-Area Resources Information System

Louisiana State University

-Cooperative Extension

State of Louisiana, Office of Planning and Budget, Division of Administration

United States Department of Agriculture

- -Agricultural Research Statistics
- -Agricultural Statistics Services
- -Economic Research Services
- -Research & Technology

United States Department of Commerce

-Bureau of the Census

1.7 Guidance Documents and Reference Documents

The following guidance documents were referenced during preparation of the 2002 Louisiana 8-Hour Ozone National Ambient Air Quality Standard Base Year Emissions Inventory:

- 1. <u>Compilation of Air Pollutant Emission Factors, Volume I: Stationary Point and Area Sources, AP-42</u>; Fifth Edition.
- 2. <u>Compilation of Air Pollutant Emission Factors, Volume II: Mobile Sources</u>, AP-42; Fourth Edition.
- 3. Emission Inventory Requirements for Ozone State Implementation Plans, EPA-450/4-91-010.
- 4. Example Emission Inventory Documentation for Post-1987 Ozone State Implementation Plans (Sips), EPA-450/4-89-018.
- 5. <u>Guidance for Initiating Ozone/CO SIP Emission Inventories Pursuant to the 1990 Clean</u> Air Act Amendments, EPA, 1991.
- 6. Nonroad Engine and Vehicle Emission Study Report 21A-2001, November 1991.
- 7. <u>Procedures for Emission Inventory Preparation, Volume III: Area Sources, EPA-450/4-81-026c</u>
- 8. <u>Procedures for Emission Inventory Preparation, Volume IV: Mobile Sources</u>, EPA-450/4-81-026d.
- 9. <u>Procedures for the Preparation of Emission Inventories for Carbon Monoxide and Precursors of Ozone Volume I: General Guidance for Stationary Sources</u>, EPA-450/4-91-016.
- 10. Procedures for Estimating and Applying Rule Effectiveness In Post-1987 Base Year Emission Inventories for Ozone and Carbon Monoxide State Implementation Plans, EPA-Policy Development Section, Office of Air Quality Planning and Standards, June 1989.
- 11. <u>Technical Guidance Stage II Vapor Recovery Systems for Control of Vehicle Refueling Emissions at Gasoline Dispensing Facilities, Volume I: Chapters and Volume II: Appendices, EPA 450-3/91-022a.</u>
